An MSIM is within your reach! No prerequisite coursework or technology experience is required. The Early-Career MSIM track is designed for recent college graduates, career pivoters and those who wish to develop their expertise and position themselves for advancement to leadership and strategic oversight roles in the future. Through this track, you'll learn work-relevant skills and have a significant opportunity to apply and showcase your skills to potential employers through your Capstone project and other hands-on learning experiences. Early-Career students have the opportunity to select two specializations to deepen their knowledge and skills in high-demand areas, making it a greater return on investment in career and salary potential. Requirements 65 credits required to graduate. Four core courses. Complete up to two specializations or use electives to customize your learning. Complete one or more internships or applied experiences, including faculty-directed research. Complete an industry-sponsored Capstone project to synthesize your learning and demonstrate your skills to potential employers. Finish in as few as six terms if enrolled full time.

**Early-Career track schedule**

The MSIM Early-Career track requires 65 credits. Residential students typically complete it in two years. Online students should consult the MSIM online portal for degree planning. In addition to the required foundational core courses and a practicum, students can complete two specializations.	
<b>Quarter</b>	<b>First-year courses</b>
Autumn	IMT 500 (4) IMT 580 (4) Specialization #1 (4) Capstone 1 (1) Specialization #2 (4) Elective(s) (4)
Winter	IMT 550 (4) Elective (4) Specialization #1 (4) Capstone 2 (2) Specialization #2 (4) Elective (4)
Spring	IMT 570 (4) Elective (4) Specialization #1 (4) Capstone 3 (2) Specialization #2 (4) Elective (3)
Summer	Optional quarter w/ limited elective course offerings N/A (students will graduate by the end of spring term)

Current students seeking complete degree and track information for advising purposes should visit the online and residential handbooks respectively. Focused learning with specializations In addition to the core curriculum , students may choose to focus their electives in two specialization areas, or may choose electives across the breadth of the curriculum for a broad-based degree in information management. Learn about specializations you can choose in the Information Management degree program . ; Resources: Advising & Support Capstone Projects Upcoming Info Sessions Videos: Alumni at Work Request more information News iBuyers are

changing real estate racial disparities, iSchool research shows Tuesday, August 13, 2024 Instant buyers, also known as iBuyers, rapidly buy and sell homes using automated models to set prices. These companies, such as Opendoor and Offerpad, can turn around cash offers in a matter of hours, and they've captured more than 5%...
