management skills necessary to lead complex information-intensive projects that sit at the intersection of information, people, and technology. Students who complete the degree often see immediate professional benefits in the form of new positions, promotions or larger leadership roles in their organizations. Students start, transition or continue into successful positions at Pacific Northwest and global technology companies, health care research centers, startups, government organizations, non-profits, financial services, consulting firms and more. Recent employers include: Accenture Amazon Avalara Adobe Capital One Casey Family Programs Chief Clearwater Analysis Coalfire Systems Delta Dental of Washington Expedia Group Federal Reserve Bank of San Francisco Institute for Health Metrics & Evaluation Liberty Mutual Group Microsoft Moss Adams, LLP NASA SAP Slalom Consulting Splunk Tata Consultancy The Boeing Company Washington State Employment Security Department Learn more about our Career Resources .
