The Mid-Career MSIM track is designed for mid-career professionals with at least five years of professional experience. Students aiming to change industries are able to supplement the curriculum with applied experiences or additional coursework as needed to support their career goals. Requirements 36-credit program. Four core courses. Complete one or more specializations or take electives to customize your learning. Additional specializations require added credits. Complete the program in under one year if enrolled full time. Flexible course schedules For residential students, Mid-Career classes are held in the evening or on Saturday mornings to provide you with the maximum flexibility in planning your program while meeting your work and personal commitments. For online students, courses have some synchronous (real-time) elements, but are mostly asynchronous so you can participate on your own schedule. Synchronous sessions will take place in the early morning or evening Pacific time on weekdays and weekends (approximately 1 hour a week, per course). Mid-Career schedule Whether online or residential, you can complete the Mid-Career MSIM in one calendar year if you wish to finish quickly and are able to manage an accelerated course of study. It allows students to complete one specialization in addition to the core set of courses. Students can stay an additional year or more if they desire more depth in their learning experience or want to complete the program at a more moderate pace. A second year also allows students to complete a second specialization. The Mid-Career MSIM requires 36 credits to graduate. Online students should consult the MSIM online portal. In addition to the required foundational core courses, students can complete one specialization and electives.

1-year course plan

Quarter	Courses
Autumn	IMT 500 (4); Specialization (4)
Winter	IMT 580 (4); Specialization (4)
Spring	IMT 550 (4); Specialization (4); Elective (4)
Summer Q1	IMT 570 (4)
Summer Q2	Elective (4)

2-year course plan

Year	Quarter	Courses
Year 1	Autumn	IMT 500 (4) Specialization #1 (4)
	Winter	IMT 580 (4) Specialization #1 (4) Specialization #2 (4)
	Spring	IMT 550 (4) Specialization #1 (4) Specialization #2 (4) Elective (2)
	Summer	IMT 570 (4)
Year 2	Autumn	IMT 500 (4) Specialization #1 (4) Specialization #2 (4)
	Winter	IMT 580 (4) Specialization #1 (4) Specialization #2 (4) Elective (3)
	Spring	IMT 550 (4) Specialization #1 (4) Specialization #2 (4) Elective (3)
	Summer	IMT 570 (4)

Current students seeking complete degree and track information for advising purposes should visit the online and residential handbooks respectively. Resources: Advising & Support Capstone Projects Upcoming Info Sessions Videos: Alumni at Work Request more information News iBuyers are

changing real estate racial disparities, iSchool research shows Tuesday, August 13, 2024 Instant buyers, also known as iBuyers, rapidly buy and sell homes using automated models to set prices. These companies, such as Opendoor and Offerpad, can turn around cash offers in a matter of hours, and they've captured more than 5%...
